DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3,5-17,19-29 and 31-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bash et al. (U.S. Patent Number 6,786,056).

In regard to claims 1 and 13, Bash et al. disclose a cooling system with evaporators distributed in parallel for future data center involved many small (1,000 to 2,000 sq. ft.) and readily deployable data centers that are skin to portable building or shipping containers (col.2, lines 35-38). Bash et al. also disclose the cooling of the data center. It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the data center of Bash et al. to a shipping container as described future data center. In regard to claims 2,3,5-12,14-17,19-29 and 31-41, official notice is taken these limitations are either obvious or used in the prior art which including Applicant provided prior art.

Allowable Subject Matter

3. Claims 4,18 and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fink (U.S. Patent Number 6,859,366), Koike (U.S. Patent Number 5,544,012) and Spinazzola et al. (U.S. Patent Number 6,494,050) are made of record as relevant prior art.
